

# **Tired of making repairs?**

## **How Does a FREE Furnace Sound?**

**Dear Friend and Neighbor,**

**Before winter becomes rough on us all, we should be thinking about our furnaces! The snowfall amounts, the frigid temps, the treacherous driving conditions, school closings, counties closed.....you name it – we may be in for it, and on top of all of this, there could be several furnaces break down! It's bad enough to have to deal with all of these weather related problems, but when you get to the end of your day, all you want to do is come home to a warm house and melt your worries away.**

**Now, I have seen a lot of repairs being done in previous seasons, and there's nothing wrong with that – it's what most of us can afford, right? The only problem with that, it's like putting a band aid on the problem. We all know that band aids aren't made to last forever! If your system is 12 years or older, you could be bandaging a system that is close to its retiring age. Why throw your money away with repairs that could be spent towards a new system? A new system would also give you warranties for peace of mind!**

**Now here's where that FREE Furnace comes in.....when you replace your air conditioner and furnace at the same time.....we have special pricing from the manufacturer to extend to our customers, so it's like getting the Furnace for FREE! Why would we do this? We have worked out this special deal with the manufacturer for a limited time, so that we could extend those savings to you.....to hopefully help you make that decision to stop throwing your hard earn money away on band aids! These specials are also on all 95% efficient furnaces, so they are energy efficient, which means that you could also receive a rebate from your gas company!**

**It never hurts to check out your options, and we give FREE ESTIMATES!  
Call today to set up your FREE ESTIMATE at one of our numbers below!  
Our Comfort Specialists are very knowledgeable and informative as they both  
have 20+ years in this industry and are also technicians as well! They can not  
only give you your options, but help you to decide which would best benefit  
you and your family in your comfort needs. Please, don't wait, call today, as  
this is a limited offer.**
